### Ausgold Playing Cards

The Ausgold Story began when we looked for a brand that will convey our product quality, security and integrity and which will be relevant to our customers, at the same time maintaining our historical links to the greater region beyond our shores. Playing cards form a very small part of the daily expenses of running gaming businesses yet could cause enormous potential problems if they are not quality assessed, fraud-proof and the quantities produced are not strictly monitored. Australian gold has always been an international symbol of premium value, strength and durability, and our new Ausgold playing cards possess the same qualities. Discover the treasure in Ausgold Playing cards. The Ausgold playing card division SNP, is part of a large group of public companies with bases throughout Asia. Ausgold SNP has an unsurpassed reputation throughout the world for its security products.

#### Our Process

- A. We use the latest CTP (Computer to Plate) technology that enables digital files to be converted straight to plate, as well as allowing our clients the ability to proof their artwork on-line. This technology also ensures the highest quality and consistent print every time, whether it is number 1 or number 100,000.
- B. We offer a great range of printing options and solutions with our 6 colour presses. Our in-line UV coating and varnish applications ensure a more consistent and longer lasting protective coating on all our playing cards.
- C. We have unique proprietary security technology which we have incorporated in our playing cards to ensure that you have the most secure playing cards in the industry. Our security features include ASP (Advanced Security for Passports), Microtext (as used in currencies) and invisible UV ink amongst others.
- D. We have customised slip varnish for different climates.

#### Security

1. Top level security management and tracking which satisfies security products such as postage stamps and bank cheques;
2. Internationally accredited security waste disposal system; and
3. Met the stringent probity tests required by the various Australian casino control authorities in order to be a supplier to Australian casinos.

### Ausgold Playing Cards

#### CUSTOMER SERVICE:

1. Total Customer Service - We will work with our customer to provide the best possible service;
2. Flexibility - we provide extra services such as removal of jokers and preshuffled decks, and are always happy to work with our clients to develop other new cost-saving measures; and
3. Commitment - we have in place a service team to handle any problems or look at incorporating new designs and features.
5. We are constantly investing in R&D and modern equipment in order to provide our customers with the best product;
6. Our playing cards have been evaluated and approved for use on all major shuffling equipment.

#### PRODUCT QUALITY:

1. 100% Quality Assurance on all our playing cards. A fully automated and visual checking system ensures that every deck of cards is free of any manufacturing error.
2. Every step of the manufacturing process from artwork to finishing is completely in-house so you can have complete confidence in the integrity of our cards.
2. ISO 9002 certification ensures our quality controls are of world-class standards;
3. Best printing technology in the playing card industry;
4. Our materials are the best available in the world;

#### PRODUCT SECURITY FEATURES:

1. Our Australian factory security levels are the highest in the playing card industry. We have the ability to incorporate advanced unique security features that nobody else is capable of;
2. Our emphasis on security continues on to the packaging with a unique tamper-evident deck packaging.

### Ausgold Playing Cards

#### Ausgold Range of Cards

Grade	Description	Material	Features	Use/Benefits
AG811	Premium Plastic	0.30ml Premium PVC	In-line Double coating of high slip varnish	Long lasting particularly with machine shufflers
AG613	Security Premium	325 gsm black center, cambric embossed	Identical to the AG611 except for the inclusion of additional security features either in the form of Microtext or Watermark/Invisible Fluoro	Highest security cards with protection similar to those of currencies and bank cheques
AG611	Premium Paper	325 gsm black center, cambric embossed	The most durable paper cards in the market. High optical brightness stock with bright 4 colour faces. In-line slip varnish application finished off with an in-line infrared drying to ensure smooth and consistent silky slip	Designed for your premium player market as well as games where durability is desired.
AG511	Professional	295 gsm, black center, smooth finish	Imported from the same high quality paper supplier that provides the AG611, this grade has the same quality finish as the 611 with the exception of the smooth finish instead of embossed.	A slightly softer grade designed for Baccarat games, where ease of "squeezing" is desired.

### Ausgold Playing Cards

	Standard options	Standard options	Security options
Face	<b>Unique Ausgold design in 4 colours:</b> <b>1. Asian – Bright red and blue</b> <b>2. Australian – Dark red and blue</b>	<b>a. Standard index</b> <b>b. Jumbo index</b> <b>c. TechArt standard index</b> <b>d. TechArt Jumbo index</b>	<b>Watermark/Invisible Fluoro Feature</b>
Back	<b>2 colours per order/run</b>	<b>Custom logo against our patented Star-point pattern</b>	<b>MicroText Security Feature</b>
Slip	<b>Standard high casino slip</b>	<b>Modified high humidity casino slip</b>	

The Ausgold 611/613 is a superior card as it:

1. Is of a heavier laminated paper construction, and therefore will last longer
2. Is thicker and therefore stronger
3. Is whiter stock giving a much more appealing appearance
4. Has additional security options.
5. Has modified high humidity slip available
6. Is a better value in terms of price.
