Currency Handling Solutions

QC-5500

Through the Wall Coin Change Machine

Created with the latest technology, the Quick Change range of coin and note change machines has become the standard within the industry.

Leading the way in through the wall coin change machine technology, the QC-5500 provides the ideal solution for unattended sites requiring 24 hour public access.

QC-5500 machines provide the added security of a through the wall machine with all the features operators have come to expect from the Quick Change name.

Security is of paramount importance, and the rear-loading feature of QC-5500 series allows operators to undertake loading, refills and servicing from a secure area, while a total of 5 mm of stainless steel protects the front of the machine.

FEATURES

- Large memory capacity, allowing for an event log which records all data for up to 3000 events. This can then be reviewed via the large LCD or optional printer. All events, including door operations, note box removal, refills, power function, currency acceptance (by denomination) and coins dispensed, are recorded and may be referred to at any time.
- Back door allows for convenient loading, with an adjacent keypad which allows the operator to record loading accurately. This user-friendly keypad is also used for pin-number security, printing reports, and adjusting date and time functions.
- Three additional serial ports, allowing monitoring, EFTPOS or other connections.
- Automatic notification system outputs trigger on site dialing system when attention is required; e.g. hopper level low.
- User friendly operation with large LCD display.
- Genuine full accountancy to ensure accurate data.
- The QC-5500 features 21 fixed and 21 resettable meters.
