A retail store can spend up to as much as forty minutes a day counting a cash drawer. When considering a store opening, shift changers and closeouts – that's wasted money.

Within a few weeks the Cashtek MC – 2000a will easily pay for itself through saving labour costs. Virtually 100% accurate, the Cashtek MC – 2000a can count out a typical cash drawer in about two minutes. Count coins and notes ranging from 5¢ to two dollar coins and five to one hundred dollar notes.

SCENARIO 1: Typical small business with one cash register, daily count of cash drawer without the Cashtek MC – 2000a

Store Opening	10 Minutes
Shift Change (2 employees)	20 Minutes
Store Closing	10 Minutes
Total Labour/Day:	40 Minutes
Labour Cost	(\$10.00/hour) = \$6.60 daily

SCENARIO 2: Typical small business with one cash register, daily count of cash drawer with the Cashtek MC – 2000a

Store Opening	2 Minutes
Shift Change (2 employees)	4 Minutes
Store Closing	2 Minutes
Total Labour/Day:	8 Minutes
Labour Cost	(\$10.00/hour) = \$1.32 daily

If you own a cash register you need the Cashtek MC – 2000a-counting scale! Hundreds of man-hours are wasted every year balancing our registers. Common human counting errors also result in incorrect totals. Why do businesses need a Cashtek MC – 2000a?

The new Cashtek MC – 2000a-counting scale balances most registers in under two minutes with perfect accuracy! The scale weighs all Australian coins and notes, and on-screen instructions walk the operator through the counting process. Expand the Cashtek MC – 2000a versatility to the optional printer. Serial output allows you to add the optional printer for real-time receipts.
