JetScan

Currency Scanner/Counter

Two Full Capacity Pockets --

Two 150 note capacity pockets make currency sorting, counting and strapping fast and easy. The second pocket can be used for an additional denomination or to offsort exception notes without stopping.

Twelve Processing Modes --

Bills can be processed utilizing stranger detection, mixed, sort, count, offsort, face or orient modes.

Touch Panel, Adjustable LED Display --

Illuminated display is easy to see under all lighting conditions. The touch panel display can be tilted forward for easier access and visibility.

Four Levels of Memory --

JetScan™ keeps separate totals for sub-batches, batches, day totals and strap limits. All are maintained during brownouts and/or power failure.

Exact Bill Stopping --

JetScan can be set up to stop precisely on a challenged bill.

Adjustable Batch Stops --

Separate batch stop limits can be established for each denomination.

Verification --

Allows currency to be counted or recounted without changing totals in memory.

Add Function --

For cumulative counting when desired.

Dual Denominating Sensors --

Provides high-speed denomination recognition of faced or unfaced bills.

Suspect Bill Detection --

JetScan offers an exclusive combination of sensing systems that individually and collectively detect a wide variety of counterfeit bills:

- Image Sensors

- Magnetic Ink Sensors

- Fluorescence Sensing

- Enhanced Ultraviolet Sensing (EUV)

Communications --

Activates ports for up to four devices including computers, printers and remote displays.

High Capacity Hopper -

Holds as many as 800 circulated bills.

SPECIFICATIONS*
