## COIN CHANGE MACHINE - QC2500

Created with the latest technology, the Quick Change range of coin and note change machines has fast become the standard within the industry.

With casino level security, accountancy and reporting features, the Quick Change range provides operators with high standard equipment at an affordable price.

The Quick Change QC-2500 has been specifically designed to make the business of coin changing simple, secure and successful.

Only the highest quality componentry is used in the manufacture of the QC-2500. Laser technology ensures cabinet finish and quality is excellent, while its security features are second to none. State-of-the-art electronics put the QC-2500 at the forefront of the industry, while its design is flexible enough to accommodate alternative brands of coin and note validators if required.

### **Features:**

- Large memory capacity, allowing for an event log which records all data for up to 3000 events. This can be reviewed via the large LCD or optional printer. All events are recorded, including door operations, notebox removal, refills, power function, currency acceptance (by denomination) and coins dispensed.
- Top door allows for convenient loading, with an adjacent keypad which allows the operator to record refills accurately. This user-friendly keypad is also used for pin-number security, printing reports, and adjusting date and time functions.
- Three additional serial ports, allowing monitoring, EFTPOS or other connections.
- Cup tray featuring optical sensors to avoid coin spillage, cup holder and cups are supplied as standard with each QC-2500.
- User-friendly operation with large LCD featuring user prompts.
- Genuine full accountancy to ensure accurate data.
- The QC-2500 features 30 metres - 15 fixed and 15 resettable - which can be viewed with the doors closed for maximum security.
- Hopper empty function, which allows operators to empty the hopper and count the coins simultaneously.
