just imagine...

From single-deck BlackJack to eight-deck Baccarat, the Random Ejection Shuffler™ has the versatility to do it all!

VendingData™'s patented technology also produces truly independent card selection. Any card may be ejected from the card tray at any time and restacked in a truly unpredictable manner. This technology completely negates advantages achieved by expert players. While most shuffling machines repeat the same mechanical action, each shuffle in the Random Ejection Shuffler™ is unique. Clumps, slugs or memorized sequences are eliminated.

In the batch mode, the Random Ejection Shuffler™ can shuffle six decks of cards in approximately 3 minutes. Because of this speed, card counting can be neutralized by decreasing penetration. This would normally reduce the amount of hands dealt, but with the Random Ejection Shuffler™ productivity remains high because a second group of cards is ready for play.

By reducing downtime due to manual card shuffling, productivity can be increased by an average of 25%.

Shufflers

Random Ejection Shuffler

The Random Ejection Shuffler™ by VendingData™ Corporation is by far the most versatile shuffler manufactured today. Casino operators can use the Random Ejection Shuffler™ for any table game that utilizes from one to eight decks of playing cards. The Random Ejection Shuffler™ can:

- Provide a "batch system" shuffle with two separate groups of cards
- Allow a continuous shuffle option
- Accommodate dealing from a traditional shoe
- Offer the player-appeal of a hand-held pitch game

FEATURES

- Utilizes the one-pass approach
- Shuffles from 1 to 8 decks
- Shuffles 6 decks in approximately 3 minutes
- Batch shuffle system enables dealing one set of cards while the Shuffler randomly restacks the other set
- Accommodates paper and plastic cards
- Lightweight, compact design
- Features universal electrical power

BENEFITS

- Random ejection platform ensures unpredictable, untrackable shuffle
- Records and displays number of decks shuffled
- Increased security and integrity
- Superior shuffler speed
- Greater productivity
- Enhanced dealer convenience/comfort
- Customized training
