Franco Slot Machines - Alice Beyond the Mirror

A novelty game with 15 lines on a screen that shows several icons spread on each game, registered by R. Franco. Five mirrors located at any position of the icon's matrix allow the player to discover three mirrors, each one showing a piece of the torso, and the combination of such pieces allows the player to obtain a prize that depends on a winning plan. Three or more special figures located at any position on an illuminated line allows the player to access a bonus game in which the player has to discover, with the minimum possible attempts, three special animated figures. The prize will depend on the number of figures shown.
